School Facilities Planning Division

SFPD 4.03 (Rev. 06/01/02)

SCHOOL SITE CERTIFICATION

SCHOOL DISTRICT _____ COUNTY _____

SITE _____ PROJECT TRACKING NUMBER _____

LOCATION OR CROSS STREETS _____

CERTIFICATION THAT:

The proposed site is suitable for educational purposes and is free from hazards that could be considered harmful to student and staff health and safety. The district has complied with all applicable laws and policies associated with the acquisition of the site, including the following:

1. EDUCATION CODES:

17211 District governing board public hearing for the evaluation of the site based on the selection standards established by the State Department of Education pursuant to Education Code 17251(b).

17212, 17212.5 Investigation of prospective school site; inclusion of geological and engineering studies.

17213 ¼ mile hazardous substances/waste & solid waste/hazardous air emissions, pipelines, etc.

17210, 17213.1, Phase I Environmental Assessment/ Preliminary Endangerment Assessment/
17213.2, 17268 Response Action.

17215 Proposed site within two miles of airport runway.

17215.5 Findings for acquisition of agricultural land.

2. PUBLIC RESOURCES CODES: (California Environmental Quality Act – CEQA)

21151.2. Notice to City/County planning commission and consideration of response.

21151.8. E.I.R or Negative Declaration contains information on hazardous waste disposal/solid waste site/hazardous air emissions/hazardous substance, pipelines, etc.

21152 [CEQA process completed and Notice of Determination filed with County Clerk for a Negative Declaration or E.I.R.](#), or the project was fully covered within a previously approved E.I.R. by another lead agency.

3. STATE POLICIES AND REGULATIONS:

State policies regarding location of school site relative to high voltage power transmission lines, high-pressure gas lines, railroad tracks and special site conditions noted on the Field Site Review Form (SFPD 4.0) have been followed.

State Law and Policies regarding Environmental Assessment for toxic contamination have been followed.

To the best of my knowledge the above is true and correct. If a different CEQA process is pursued subsequent to this certification, the district shall immediately notify the CDE and the Office of Public School Construction.
